

Sri Lanka, also well known as Ceylon, is an island nation in the Indian Ocean, located in Southern Asia, southeast of India, in a strategic location near major Indian Ocean sea lanes. It has a total area of 65,610 km<sup>2</sup>, with 64,740 km<sup>2</sup> of land and 870 km<sup>2</sup> of water. The coastline is 1,340 km long.

Two well-rostered monsoons bring adequate seasonal rain; keeping one half of the island rain-free in turn, year-round. Thus while the south and west has a sunny, dry 'high season' from November to April, the eastern and northern regions enjoy excellent weather from May to September.

Sri Lanka's terrain is mostly low, flat to rolling plain, with mountains in the south-central interior. The highest point is Pidurutalagala at 2,524 meters. Natural resources include limestone, graphite, mineral sands, gems, phosphates and clay.
